(:22).

We don't ask if you have a heart problem .. when you get on a plane form Australia to New Zealand ..

(:24). We have the knowledge but we don't facilitate ...

Our team is getting shocked with what is coming out, and they emotionally get involved. For some people it is beyond what they came in for. They can't handle it. There is guy I can't believe I can touch the soil of the moon. But it just flows through me. When he went to go on a camera, he got so emotional, he just walked out. He said, it's so real it's beyond

imagination. It can be done, .. very highly educated man. He said, .. he just walked out. he said I'll write it .. he can't the emotion of the reality overtakes me of what is going on. (:26). We had another lady the same.

It's not a dream, it's a reality of science and T, understanding the next step.

Try a prearranged meeting ..

In Australia you organize with someone in NY. I will come for lunch and we'll see if you feel anything.

Q: Could you explain a little bit to people how not only are people getting something from going in these systems, they are also giving, and how the system is learning and you are learning as this progresses, and how eventually the whole knowledge of all the creatures on the planet will be integrated into the system.

K- We are building a Wikipedia of the planet earth, even the plants animals, .. people come with ..

Because of our research in the past .. we have what you call, "orange in the Cup" many of you have done the test keeping the orange outside. But if you create the right condition we can taste in the Cup the energy of the orange, you have the taste and emotion of drinking the orange, you can choose anything you like. So we understand you can buy the kit from the KF Store .. (:28).

Understanding that we are just expanding on the knowledge over 20 - 30 years.

Everything is done on a scientific basis, We are not a ... sect or whatever .. If we are a sect, so Tesla is a sect too. so is Edison he used different kind of transmissions. If you

We are a scientific organization

I carry creatures with me for 20 - 30 years they travel in boxes around with me.

You create life in your boxes.. But if you know as much as I know you create give create. life.

We understand the process of the creation in the U, not on the planet (only). We built systems to confirm the process, this is another part of the confirmation. Everybody for years told us this is all fake, Mr. Keshe is this . does that .. No because you got stuck in the pieces while we were putting the jigsaw together. But we showed the pieces of jigsaw, now the pieces are put together. (:30). Now we are adjusting to fit into the frame of work. Anybody can do it, it's not just K, we are building 2 to 4 of these systems a month from now on.

It's on the market for 25 million Euro. It's not cheap. We already received orders.

(:32).

They go with wine in the cup ...

We tell them can you put some of the dust of the moon in the cup that we can see them. Physically they actually grab and they put in the thing. Now we have put these cups in to conversion systems, to see by Monday if we can convert them to sand. These are not anymore sci-fi films this is the reality of science.
(:34).

It's an amazing time in S&T. It's not a dream anymore ...
We are teaching KS to take over ... now they are moving into the control and flight room. (:36).

Out of the 25 people 4 are coming back ..
the soul wants to tech the P , to be understanding
They all speak about the expansion of the fields from ?? ?? ??

A lady called it a bubble. ..
They all speak about this the P is now inside the Soul. ..

We have people who do not want to get out of the system. WE have problems . can you please move on. No, I am where I am ..

But these are first trials .

It's not our reality but of the reality of S&T
(:38).

We have to understand what it means. We'll

Did Egyptians travel this way

Q: Have other civilizations done this kind of thing like the Egyptians and the pyramids ?

K- We don't know we'll find out. The KOC is not exclusivity of man and today ...

It's the KOC and it's been there since the beginning ..
